Variety pays!

Major sales potential often lies in the subtle differences.
Transfer your experiences with glass, tableware
or cutlery to the growing market for carafes.

FLOW

the curved one

The shape of this carafe flows as beautifully as its contents. The asymmetric lid gives this compact design momentum. A whole litre and a completely elegant design.

Kurz Kurz Design
designed by
Kurz Kurz Design, Solingen

FLOW SLIM

the one with the straight lines

The model among bottles.
Delicate lines, a high waistline,
graceful and slender. The FLOW SLIM
is the focal point of any table.

FLOW CLASSIC

the classic one

Fits in with any style of interior design.
Modestly attractive. Simply a sales hit!

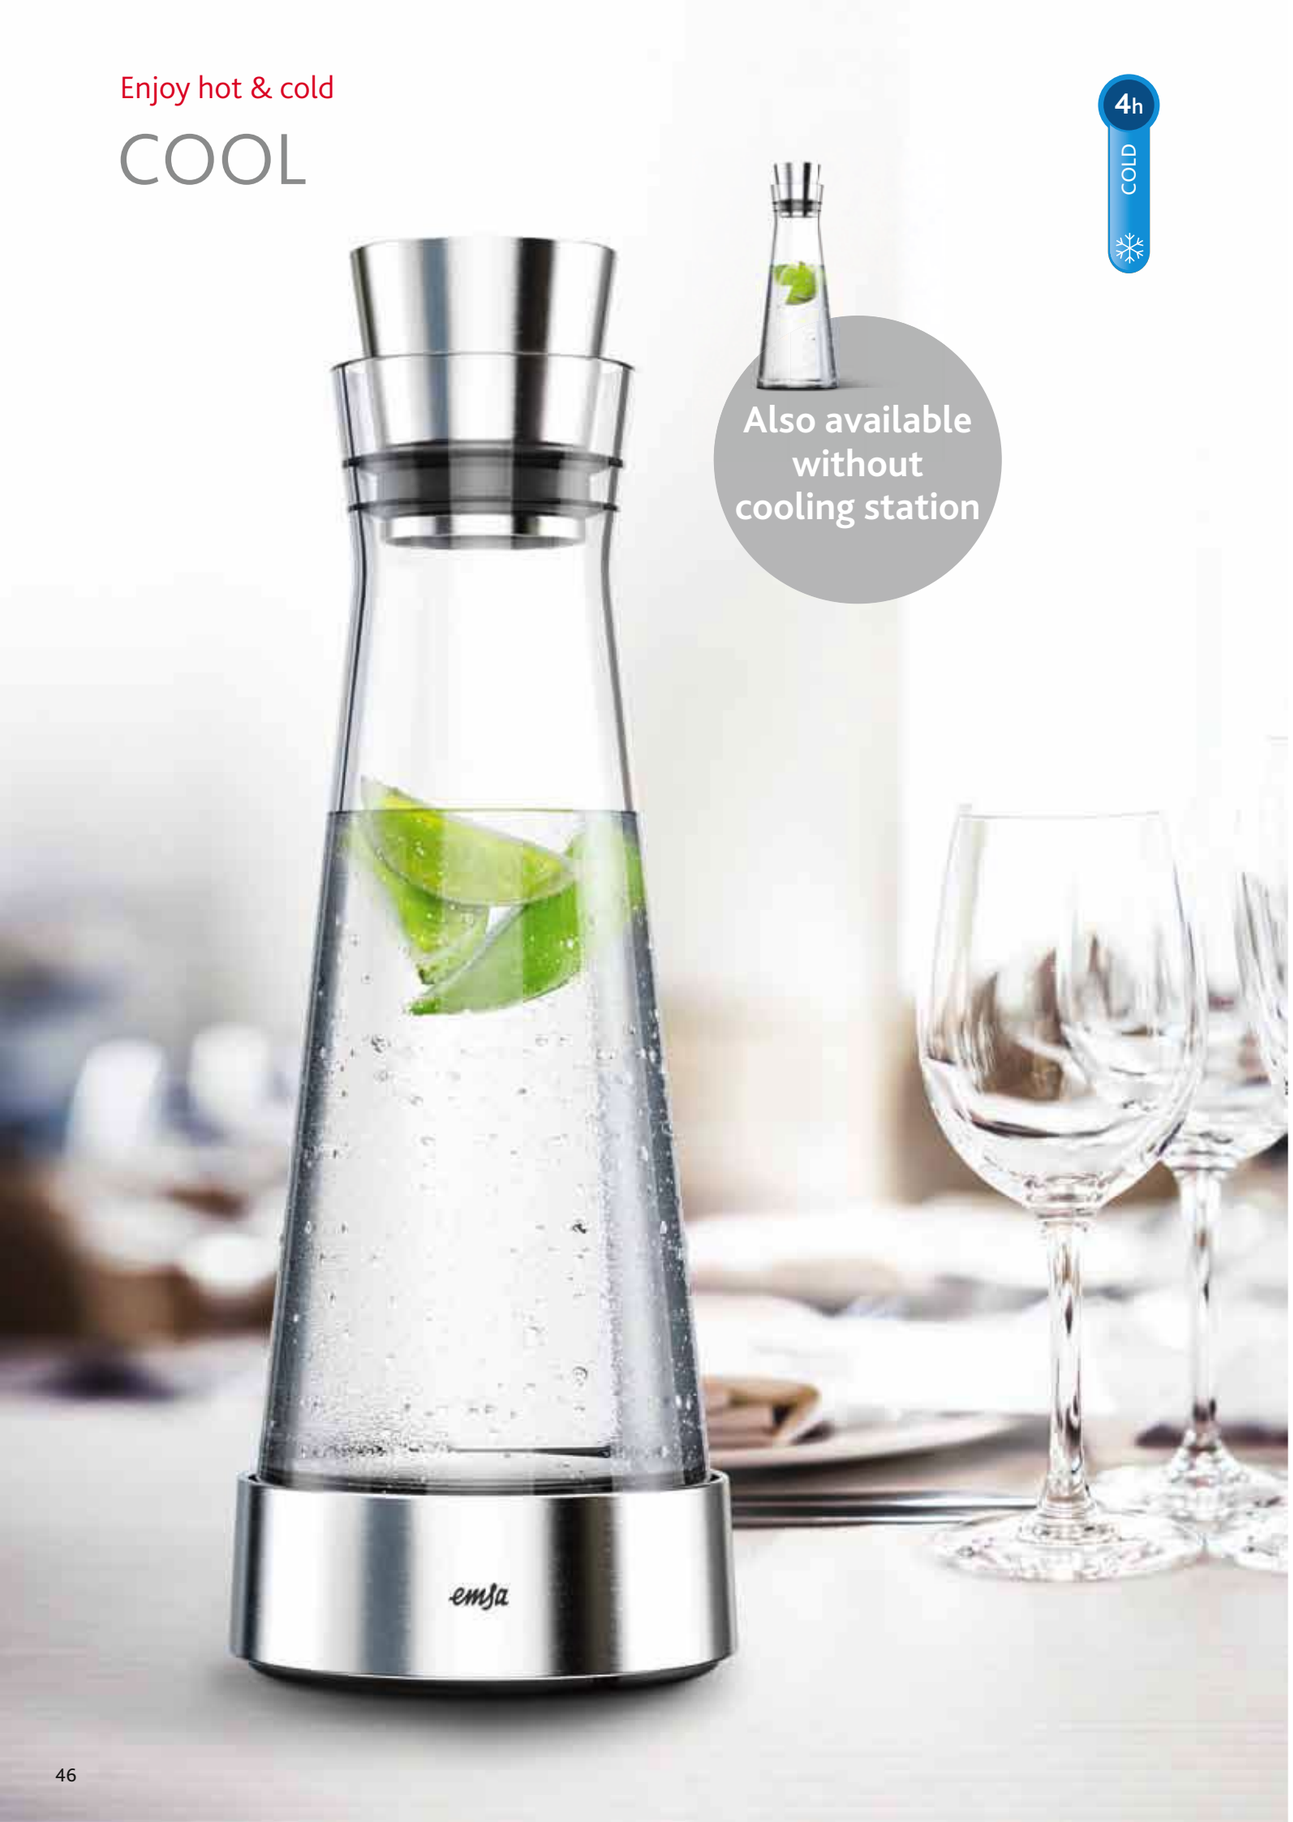

FLOW BOTTLE

the dynamic one

A new take on the established bottle shape.
The outline flows seamlessly from the base
to the tip. Glass and stainless steel are combined
to exciting effect. Beautiful simplicity.

WISSENSCHAFTLICH BESTÄTIGT * SCIENTIFICALLY PROVEN Prof. F. Titg

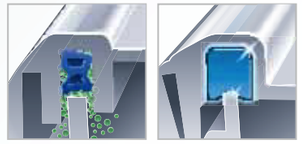

FRISCHE-DICHTUNG
FRESHNESS SEAL

Always leak-proof.
Because everything stays where it is.

100 % safe – 100 % leak-proof. Simply nothing gets through the EMSA freshness seal – no liquids, no odours.

Always fresh.
Because germs are kept out.

traditional EMSA

What makes the EMSA freshness seal so special? Conventional food storage containers merely have inserted seals. Germs accumulate and multiply. This is where food ceases to be fresh.

EMSA food containers have a unique seal without any gaps. Therefore no germs are able to accumulate. Food stays fresh longer. Scientifically proven!*

Always healthy.
Because even baby food stays fresh and nutritious.

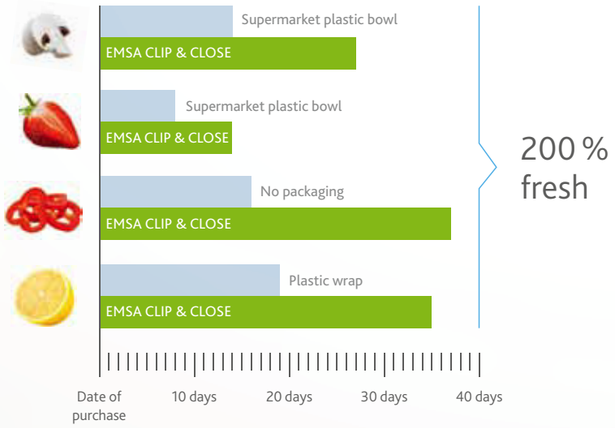

Today's parents are more demanding than ever. Perfect, because not only are EMSA food storage containers 100 % BPA-free, but also the only food storage containers manufactured in compliance with the Babycare norm. And adults also want the very best quality for themselves.

Long-lasting freshness
is no coincidence.

Prof. Dr. Fritz Titgemeyer, expert for food safety and hygiene at the Münster University of Applied Sciences performed the test. The result:

CLIP & CLOSE food storage containers are absolutely germ-free – a decisive factor in long-lasting freshness.

* Benchmarking of food storage containers, a study conducted by Prof. Dr. Fritz Titgemeyer, Professor of Food Microbiology at the University of Applied Science of Münster, Department of Oecotrophology, Sept. – Dec. 2012.
** Tests conducted by the Institute for Sustainable Food and Nutritional Sciences (ISuN) at the Münster University of Applied Sciences, July to December 2014.

Freshness guaranteed

CLIP & CLOSE

BPA FREE

Made in Germany

Because fresh food simply stays fresh longer.

- **100 % safe:** even certified for baby food and BPA-free, of course
- **100 % hygienic:** seal and lid are firmly attached to one another
- **100 % leak-proof:** ideal for transporting liquid food and absolutely odourless
- **100 % convenient:** with scale, safely stackable and nestable, supports HACCP
